NEW FRAME PRODUCTS

# Spotlight on Ben Sherman

L’Amy America adds three new optical styles to its Ben Sherman collection. Each square-shaped frame is entirely crafted of earth-friendly sustainable materials and offer a classic and modern design aesthetic. The new men’s styles combine masterful workmanship, British design and wearability with spring hinges for all-day comfort. Design details seen throughout the collection include temple foiled logos, embedded metal hardware on frame fronts and signature paddle shaped acetate tips.
