# Spotlight on Ann Taylor

L'Amey America unveils its Ann Taylor fall 2024 ophthalmic collection. The two new women's styles offer standard sizes in modernized shapes and elegant color schemes that are inspired by the Ann Taylor apparel collection. They are designed for ages 18 and up with a size range of 52 mm to 53 mm and feature flexible spring hinges and enhanced nose pads. The optical styles feature geometric and CatEye silhouettes with architectural dimension and multi-color blocking details and are made from cellulose acetate and stainless steel.
